Tie With No Scaled Marlin, but Teams Have Tag Points and Scaled Ahi

In the case of a tie where there are no marlin scaled, but the tied teams have the same tag points and ahi(s) - the win will go to the team with the largest scaled ahi.

Tie With Tag Points Only

In the case of a tie with tag points only, and there are no fish scaled, there will be no 60/40 split. The win will go to the team arriving at the tie position first (according to radio logs).

Tie With Ahi Only

In the case of a tie where there are no marlin scaled or tagged, and the tie position is between teams with only ahi points, the decision will go to the team with the greatest number of ahi. Should there still be a tie in points and number of ahi caught by each team is the same, the win will go to the team with the largest single ahi.

Should there be a tie with the same number of ahi and each team's largest ahi weighs the exact same, then the particular purse shall be split 60% to the team arriving at the tie position first and 40% to the team arriving at the tie position second (according to radio logs).

The determination as to who arrived at the position first will be determined according to the time reflected on the radio log when the reporting team called in and reported the qualifying fish as being boated or tagged and released, in all cases.
