

Note: These Rules May be Subject to Further
Revision Prior to Tournament Start

2019 HAWAII MARLIN TOURNAMENT SERIES GENERAL TOURNAMENT RULES

Section 1.0 Who May Enter

Who is allowed to enter is determine at the sole discretion of The Series owner(s). These are privately owned events and we reserve the right to refuse entry to anyone, for any reason.

Section 1.01 Fishing Hours

7:00AM to 4:00PM (unless otherwise noted)

Section 1.02 Check In, Check Out

All boats must report at the fuel dock between the hours of 6:00AM and 7:00AM on Day One of fishing to pick up their official camera and release tags. If you are late, you must still check in at the fuel dock before going fishing. If a team tags a fish and turns the camera in, they must pick up a replacement camera prior to start fishing, the next day.

All boats must check in with tournament control by radio when “On the Line.”

Boats must also “Secure” at the end of the day. A boat may “Secure” prior to actual arrival at the harbor, but from the time that they announce that they are “Secure”, they are holoholo.

Section 1.03 Start Fishing

Day One fishing starts from the Green Buoy at Honokohau and “The Line” extends from the Green Buoy north towards Pine Trees but does not extend past Koloko Fish Pond at the distance offshore equal to that of the Green Buoy or a maximum depth of 100 fathoms. A lane must be left open between the green buoy and Kaiwi point to allow other boats ingress and egress to the harbor.

Boats are not allowed to leave the harbor for any reason, prior to the call of Start Fishing, except for the sole purpose of moving to the starting line - on Day One.

On subsequent fishing days, boats can start “World Cup Style” with lines in anywhere they want to be - at 7:00 am (unless otherwise noted).

All boats must be in the harbor, or inside of the Green Buoy Start Line between sunrise and the call of Start Fishing on Day One.

All tag cards and cameras must be checked in by boat, at the Fuel Dock, unless advance arrangements are made with the tournament director.

Section 1.04 Fishing Area

There is no limit to where you may fish. The “Fishing Area” map is for reference and general location. It is not a boundary of where you can and cannot fish. If you are outside the published grid, please give a Lat. Long. or the nearest grid you are closest to during the radio roundups.

Section 1.05 Radio and Tournament Control

Tournament Control will be on VHF Channel 68. Cell phone calls are not accepted for reporting a fish catch, tag or loss etc.

2019 HAWAII MARLIN TOURNAMENT SERIES GENERAL TOURNAMENT RULES

Section 1.06 Radio Roundups

Radio roundups will be conducted at 10:00AM, 12:00PM and 3:00PM on every day of fishing. When Tournament Control calls for your team to report, you must call in your Team Number, Area & Fish Report. Please see the published "Fishing Area" map for specifics on how to call in your fish report.

Section 1.07 Radio Conformation

All hook ups, losses of fish, captures of fish and tag and releases must be confirmed by tournament control radio. If confirmation from Tournament Control is not possible due to distance or radio failure, a confirmation must be made via relay. Any fish that has been tagged or boated that tournament control has not confirmed will not be allowed to qualify in any manner. Confirmation is the responsibility of the teams.

Section 1.08 Estimated Weight and Short Length

Every boat that boats a marlin must call in the short length within 15 minutes of boating the fish.

Section 1.09 Cell Phone

Cell phone hook up/catch/loss/tag reports must be called to another boat and relayed to Tournament Control by VHF radio. Tournament Control will not accept cell calls.

Section 1.10 Multiple Hook Ups

Multiple hook ups must be reported to Tournament Control immediately upon realization that there are multiple fish hooked up. Specific Video will be required to verify a multiple fish hookup. Failure to report or produce the proper Video can be grounds for disqualification.

Section 1.11 Dock Time

In regard to all fish reported as caught or tagged to Tournament Control - prior to the call of "Stop Fishing" - all boats with fish to weigh and/or tag cards to turn in, must be inside Honokohau Harbor by 6:00 PM. If you are not inside the line drawn from the green and red Honokohau port entrance lights by 6:00 PM, your catch will not qualify. It's that simple.

Section 1.12 Late Weigh Ins

If you hooked up prior to the call of "Stop Fishing" at 4:00 PM, you may fight your fish until you catch it. If it is apparent that you will miss the dock time because you are still hooked up, Tournament Control must be notified in order to make the necessary arrangements.

If there are fish on board that you boated prior to the call of "Stop Fishing" at 4:00 PM, and you hook up prior to the call of "Stop Fishing" but do not land that fish(s), your first fish(s) will still count and you will be exempt from dock time provided that Tournament Control was properly notified.

Section 1.13 Disposition of Fish

Disposition of fish is 100% the responsibility of the teams. Fish must NOT be left at the dock, or they will be confiscated - and eaten.

Section 1.14 Registered Crew

Each team must register one captain and up to two crew. Captains and crew can be registered as anglers, please note that four angler are the max per team included with the base entry. More may be added for an additional registration and hospitality fee.

Section 1.15 Registered Anglers

Any participant who wishes to weigh a fish for qualification or turn in a tag card must be listed on the registration form as an angler. Non-registered guests are welcome on board to ride along, BUT only registered anglers can angle a fish for qualification in the tournament. Substitute anglers are allowed, but they must be called in prior to "Start Fishing" of that day to Tournament Control.

2019 HAWAII MARLIN TOURNAMENT SERIES GENERAL TOURNAMENT RULES

Section 1.16 Definition of Team

A team is defined as a maximum of four (4) anglers and one (1) captain and two (2) crew in relation to the Base Entry Fee. Personnel can be added. (see sec. 1.14)

Section 1.17 Minimum Weight

No awards will be given to any fish that weighs in under the minimum weight specified in the specific rules of that tournament.

Section 2 Angling Rules

Section 2.01 Angling Rules

International Game Fishing Association (IGFA) Angling Rules For Fresh and Saltwater strictly apply. IGFA angling rules can be found in each team kit.

NOTE: IGFA "Release Rules" do NOT apply and are not incorporated into the HMT Series Rules or associated individual Event Rules.

Section 2.02 Fishing Line Requirements

130-pound (60kg) line class maximum for a "front". SEE BELOW.

No bonus points for lighter line. Tackle will be inspected with each and every fish weighed and tagged. Lines may be tested at the discretion of the judges.

IGFA has adopted the following, until further notice:

Equipment Regulations

A. LINE & BACKING

1. Monofilament, multifilament, and lead core multifilament lines may be used. For line classes, see World Record Requirements.
2. Wire lines are prohibited.
3. The use of backing is permissible.
4. The catch shall be classified under the breaking strength of the first 16.5 feet (5 meters) of line directly preceding the double line, leader, or hook. This section must be comprised of a single, homogenous piece of line.

Please see the IGFA rules copy in your team kit for specifics.

Section 2.03 Terminal Tackle

Terminal tackle must be tied in conformance with IGFA specifications. Mis-tied terminal tackle is not considered non-conforming gear, but will result in the disqualification of the specific catch being judged at that time only.

Section 2.04 Re-Use of Lures

A lure may be re-used after a capture only if this method is strictly adhered to: Cut the leader approximately 12 inches up from the eye of the front hook. Save the hook(s) with the 12 inches of leader attached. Save the long piece of leader also. Present both pieces to the judge along with your lure, tackle and fish or tag card. Cuts, scrapes and scratches that do not match on the two pieces of leader can be grounds for disqualification. Once the leader is cut, the hook set cannot be reused, only the lure. The hook set and leader must be presented as described above or your fish will be disqualified.

Section 2.05 Non-Conforming Gear

Any non-conforming gear, on board, used or not used, is ground for disqualification. Remove all hand lines, long lines, purse seines, drift gill nets, slide gaffs, harpoons, commercial fishing gear, bombs, guns, gang hooks, etc. Green stick rigs. The green stick its self can be left on board, remove the bird and the reel from the boat.

Section 2.06 Transfer of Stuff

After the call of start fishing, there shall be no transfer of “stuff” between tournament boats *On The Playing Field*– including but not limited to – bait, tackle, caught fish, mechanical supplies and/or personnel. A team may return to the harbor to pick up “stuff”, and/or people, and/or to change boats, if needed. A request to use a replacement boat must be made to Tournament Control prior to the transfer of any stuff or personnel between boats. Tournament Control may require an inspection of one or both boats prior to the time that the request to use a replacement boat is granted.

Section 2.07 Tag Poles

Tag poles shall be no longer than 8 feet overall. Tag poles will be measured. Telescoping tag poles that extend beyond 8 feet long will be considered non-conforming gear.

Section 2.08 Tagging and/or Gaffing

A fish may be tagged and then observed to determine if the fish is better than 400 pounds. Should that marlin be lost during said observation period, the tag points will still apply to the team score, provided that sufficient photographic evidence is still obtained.

However, no team may “boat” a fish and then tag and release it. “Boating” a fish includes pulling the fish into, or part way into the cockpit. If a fish is boated in any manner – with or without a gaff - it must be kept and brought to the scales. If a marlin is ‘boated’ and then pushed back into the ocean for any reason, the team shall receive zero points for that fish.

The intent of tagging is that the fish is handled and released in a manner that maximizes the chance that it will survive the tag and release. Attempts to calm the fish with an “attitude adjustment” bat or “donga” shall also result in a forfeiture of tag points for that fish.

Should the team decide that the fish is large enough to be taken, the fish may be gaffed. At the point that a gaff touches a fish, the tag points are lost. Should the fish subsequently be lost after a gaff touches the fish, all points are lost. You must be hooked to a fish at time of tagging or gaffing. No free tagging or gaffing.

Section 2.09 Birds

Birds, any sort of float or other device that may unfairly hamper or inhibit the normal swimming or fighting ability of the fish are not allowed when attached to the fishing line or any segment of terminal tackle. Birds may be used as teasers, as may dredges, daisy chains, mud flaps or any other “teaser” so long as they are not attached to any part of the fishing line or terminal tackle.

Section 3 Tag and Release Requirements

NOTE:IGFA “RELEASE RULES” DO NOT APPLY!

Section 3.01 Video

All marlin tagged and released must be evidenced on Video in order to qualify and the Video must be taken with the camera supplied by tournament control only. No video – no money. Video must be taken with the intent to verify (1) species of the marlin and (2) that the tagging procedure was fully performed, and (3) that multiple hookups were actually being fought when so reported.

Section 3.02 Best Approach to Producing Video Required by Judge(s)

The best approach to getting the Video required is to take at least one sequence from the bridge with a wide view of the fish on the leader being tagged. If feasible, go down the ladder and take another sequence close up. It is recommended that you take a couple of clips from each approach, with wide, from the bridge, being the priority (if you have a bridge).

It is expressly understood that due to the nature of dealing with wild animals, and the inefficiencies of sport fishing tackle, no procedure is fool proof, and there is always a chance that, regardless of procedure taken, the team may not capture the video images needed by the judge(s) and may be denied points based upon the lack of photographic quality and/or detail. In any event, all videos must be taken in compliance with Sections 3.01 and 3.05.

If, for any reason, the video camera given to your team by Tournament Control stops working call tournament control immediately to get permission to use another camera, so that your situation can be logged in.

If you notice the camera is not functioning properly during a tag and release, get back up video on another device and report the incident immediately so that Tournament Control can make necessary arrangements.

It is recommended that teams always take back up video - however - the choice to accept video from an "unofficial" personal camera will be left up to the sole discretion of the Judge, on a case by case scenario.

Section 3.03 Radio Control and Photos

Tournament Control radio will give special instructions for Video that you must take at the time that you call in your tag and release (after your release). Failure to take security video assigned by tournament control will result in disqualification.

Section 3.04 Multiple Hook Ups and Tagging

Multiple Hook Ups must be reported to radio control immediately upon hookup as you will be required to take specific Video to provide evidence.

Section 3.05 Intent of These Rules

As with the I.G.F.A. Angling Rules rules, tournament rules are written with specific "intent" paramount. Participants should be aware that dealing with wild animals is not like dealing with a golf course, where it is plainly obvious whether a golf ball went in the hole or not.

As example, I.G.F.A. Angling Rules (Saltwater) state the intention that the angler shall strike and hook the fish with the rod in hand. We all know that this is not practical with 130 lb. bent butt tackle. However, I.G.F.A. recognizes this is rarely the case with heavy tackle. The IGFA's stated intention is that the angler move the rod from the holder to the fighting position as quickly as possible.

This tournament Series requires that video be taken of marlin released with the intent to verify (1) species of the marlin and (2) that the tagging procedure was fully performed, and (3) that double headers were actually being fought when so reported.

Now, a golf ball in a hole is a golf ball in a hole, and there are no two ways about it. A video proving that the tag and release procedure was fully performed may take many forms, and it is the responsibility of the judge(s) only, to ascertain if the photos provided fulfill the intent of this rule. By participating in this tournament, the teams accept this, and are responsible for providing the best possible videos to the judges.

It is not the intent of this rule that teams are required to get a close up of a tag streamer in a marlin. “Man handling” fish after tagging contributes to undue mortality. This is counter-productive to the intent of tag and release. The recommended procedure for teams to get the videos required by the judge(s) is outlined above. The decision to either follow or not follow the recommended video procedure is the choice of the teams, and the results are their responsibility – regardless of procedure employed.

The judge(s) shall be the only person(s) to interpret the videos for the purpose of rulings. A team may ask to see the videos taken from their boat only. Should the judge(s) have a problem with any particular video and/or disallow a tag and release on the grounds of insufficient videographic proof of (1) species and/or (2) that the tag and release procedure was fully performed, and/or (3) that there was indeed a double header - it is the responsibility of the judge(s) to show the photos to the team whose catch is being disallowed, only.

Section 4 Sportsmanship, Protests and Payout

Section 4.01 Sportsmanship

All judging, awarding, and accounting of purses and prizes will be handled in a business like manner and in the spirit of good sportsmanship. No yelling or otherwise attempting to intimidate judges or officials shall be tolerated.

We also reserve the right to refuse entry to anyone, for any reason. These are private sector events.

Section 4.02 Disqualification

Grounds for disqualification include but are not limited to: cheating in any manner, which includes but is not limited to--filling fish with water, using line “front’s” heavier than 130 lb test, faking a tag video in any manner, disfiguring or rendering official cameras unworkable in any manner, using tag poles longer than 8 feet in length, and/or using non-conforming gear & falsifying hook-ups.

Section 4.03 Protests

All protests must be filed in writing by 7:00 PM on the final day of fishing. Each individual protest must be submitted along with a \$300.00 deposit fee. No Exceptions. At the sole discretion of the Tournament Director, a decision on any potential rules infraction may be referred to the Protest Committee for final decision. A decision of the Protest Committee will be final and binding upon all parties. If the grounds for protest are not found valid, the Protester shall lose the \$300.00 deposit. If the protest is found valid, the \$300.00 fee will be returned.

Section 4.04 Current Protest Committee

- John Jordan
- Tomo Rogers

Section 4.05 Rights and Responsibilities

There are certain responsibilities inherent to, and accepted by teams and management. Upon payment of entry fee(s), teams are, from that point forward, bound by the rules of the tournament as printed herein, and accept this responsibility.

Upon acceptance of entry fee(s) from any number of teams, management becomes responsible for scoring of the tournament, judging of catch(es) in relation to the rules printed herein, and disbursement of purse and/or refunds as determined by the outcome of the tournament.

Should a team find that there are rules in the tournament that they do not find acceptable, they may withdraw from the tournament prior to the call of start fishing on Day One of the tournament. See individual tournament rules for stipulations and refund policies for that specific event.

Once the tournament has started, the teams are bound by the rules printed herein. Violation of one or more rules is grounds for disqualification and/or ejection from the tournament.

2019 HAWAII MARLIN TOURNAMENT SERIES GENERAL TOURNAMENT RULES

A team may withdraw after commencement of the tournament, but all entry fees shall be forfeited and remain in the purse as per normal. Management reserves the right to deny entry to anyone.

Section 4.06 Official Results and Pay Out

Purse money shall not be distributed until tournament Videos are processed and results verified. "Results" printed prior to Video verification, protest review and final tally are "Unofficial."

Section 4.07 Use of Polygraph

U.S. District Court Judge Richard D. Bennett of Baltimore recently issued a judgement in favor of the White Marlin Open and their use of polygraph evidence was a large part of the case. Therefore, at the sole discretion and decision of The Tournament, potential winners may be required to take polygraph tests.

See HMT Series Polygraph Policy document for specifics.

Section 5 HMT Series Scoring, Points and Placement

This section pertains to the overall Series points earnings and does not apply to individual tournament standings.

Section 5.01 Fish Scoring

200 Points shall be awarded to the angler and boat for each blue or black marlin tagged and released.

100 points shall be awarded to the angler and boat for each striped marlin tagged and released.

Zero points shall be awarded for spearfish or sailfish regardless of whether they are tagged or captured.

1 Point Per Pound shall be awarded for each blue or black marlin boated. However, a minimum weight of 400 pounds is required to qualify for Series points, regardless of Member Tournament minimum rule.

1 Point Per Pound will be awarded for each pound over 100 pounds for each Ahi weighed. Example: a 101 pound ahi will score 1 point. A 123 pound ahi will score 23 points

Section 5.02 Series Angler and Boat Scoring

Anglers and Boats shall earn points for each Member Tournament that they fish – as individual anglers or boats-regardless of their team composition. All participants in a Member Tournament are automatically entered in the Series.

The Series points, however, shall be awarded to the angler or boat in relation to their specific catch, and the catches of their teammates.

Multiple catches by members of a team in a Member Tournament shall be scored for Series Points separately – according to individual's catches-and with no connection to the scoring of the Member Tournament.

At the end of a Member Tournament, an angler is guaranteed 50 points just for participation, and could score points for catch(es), and possibly earn placement points. Boat points are cumulative of all angler points scored on board. Boats also receive 50 Participation Points for each tournament entered.

Section 5.03 Rules for Qualifying Catch

All Series points are to be awarded based on catches complying with IGFA International Angling Rules only.

Catches hoping to qualify for Series points must first qualify for points in the Series Member Tournament in which they are captured and/or tag and released.

2019 HAWAII MARLIN TOURNAMENT SERIES GENERAL TOURNAMENT RULES

Should the Series Member Tournament judge(s) authorize claim under IGFA rules, the Series judge(s) shall proceed with the processing. Rod, reel, hooks, line and terminal tackle shall be inspected at the discretion of the Series judge(s).

Series judgment(s) shall remain separate from those of the Member Tournament judgment(s), and will have no effect on the outcome of the Member Tournament score, whatsoever.

Section 5.04 Event Placement Points

Event Placement scoring is awarded to the angler's catching a fish on a team that contributes to that team earning First, Second or Third Place Overall in each Member Tournament.

First, Second or Third Place Overall shall not necessarily be attributed to Member Tournament purse distribution, but to the equivalent of First through Third Total Points, or Gross Score.

Should more than one angler contribute to a catch to the Member Tournament Placement, the Series Event Placement Points shall be split evenly among the anglers catching the qualifying fish.

Should one or more fish from a Placement team be disqualified, the angler disqualified will not receive a share of the Event Placement Points unless they qualified a fish other than the one not allowed.

- 300 points gross shall be awarded to the angler(s) for a First Place Overall finish.
- 200 points gross shall be awarded to the angler(s) for a Second Place Overall finish.
- 100 points gross shall be awarded to the angler(s) for a Third Place Overall finish.

Section 5.05 Participation Points

Each angler shall receive 50 participation points per Member Tournament fished.

Participation points may be revoked if an angler is proven to have taken part in a rule infraction.

Section 6 Definitions

Section 6.01 Ahi

The Definition of "Ahi" in the HMT Series, refers to Yellow Fin Tuna, Blue Fin Tuna and Big Eye Tuna.

Section 7 Misc.

Section 7.01 Entry fee and access to HMTS events

The entry fee for each event includes access for up to four anglers and two crew members per event entered. Additional tickets are available for family and friends. Please enquire with HMTS Staff.

Section 7.02 Administrative Fee

All entry fees, whether base or optional are subject to a 5% administrative fee. This fee is not included in the calculation of the base purse, or the optional purse. This Administrative Fee has been incorporated into the tournament entry forms. For example, an entry fee for a \$100 daily optional category is reflected on the entry form at a price of \$105.

Section 7.03 Cash/Check Discount

All entry fees paid by cash or check, whether base or optional, are entitled to a 5% cash/check discount. This Cash/Check Discount has been incorporated into the tournament entry forms. For example, an entry fee for a \$100 daily optional category would ordinarily reflect a price of \$105. The Cash/Check Discount Form, however, reflects a price of \$100.

Mahalo for fishing in the 2019 Hawaii Marlin Tournament Series!
